

The best choice for business: Windows 10 Pro devices

ONLY WINDOWS 10 PRO DEVICES

Run full Office apps, Windows apps, and USB printers

Give you a choice in device management solutions

Provide USB storage encryption and digital rights management for data on the go

Offer control about where your files are stored and system updates

GET UNMATCHED PERFORMANCE, SECURITY, AND FLEXIBILITY WITH WINDOWS 10 PRO

Runs the things you need to run your business

- Full, commercial-grade apps like DocuSign*, QuickBooks Online*, Citrix Receiver* and Office* means you don't have to compromise.
- Compatible with most printers and other devices, both older and newer technologies so your business has the flexibility to keep what's already working.
- Familiar Windows interface allows you to feel like an expert from the start.

Provides comprehensive protection from current and future security threats

- The most up-to-date protection against modern threats— including anti-virus, firewall, and phishing filters—to help keep your data and identity safe.
- Advanced features like BitLocker and Windows Information Protection help keep your device locked-down and your business protected.
- More secure logins. Windows Hello** enables you to move away from passwords to an enterprise-grade solution that can't be phished and or remotely accessed by unauthorized users.

Integrates with your existing IT, on-premises or in the cloud.

- Keep what's working—including the infrastructure and technology you already have.
- Have it your way. Get your choice of apps and data on your device or in the cloud—or even a combination of the two. It's simple, seamless and made for how you want to run your business.
- Effectively works with Microsoft and all third-party mobile device management (MDM) solutions.

*Sold separately.

**Windows Hello requires specialized hardware, including fingerprint reader, illuminated IR sensor, or other biometric sensors. Devices must include a Trusted Platform Module (TPM).

Choose a business device with Windows 10 Pro

"I'm too limited in what I can do and what I can achieve on Chromebook."

Corey Weathers, CEO,
Homegrown Trailers

WINDOWS 10 PRO GIVES YOU MORE FOR YOUR INVESTMENT.....

For about the same cost as a Chromebook you can get a Windows 10 Pro device that gives you modern management capabilities and access to all of your files (offline and online). All without sacrificing your identity and data security.
