

Windows 10 Pro with Office allows you to do more with your business

Like a guard dog for your data. You don't have to worry about losing your company information. Your business data and files such as your Excel spreadsheets are encrypted. Even without your device, you can still access your Office¹ documents that have been saved in the Microsoft cloud. You can be confident that employees can't share data without your permission because you can restrict employees from copying protected business information into personal emails and documents.

One and done login. It's easy to get to work quickly across your favorite devices. You need only one login to reach all your Microsoft services including Skype, OneDrive, and more available virtually anywhere. You don't need to remember multiple passwords or interrupt your workflow to sign in again when you open a different app.

Touch, Talk, Type, Jot. Decide among many device choices with different input options. Work your own way on your favorite device, using touch, pen and ink, or voice.² Even mouse and keyboard. And you don't need to choose between a tablet or a laptop. You can have both: use Office¹ on a Windows 2-in-1 device that can transform on the fly from a tablet to a laptop, allowing you to work virtually anywhere in just the way you want.

Sync and save wherever you go. You can search, access, and save your OneDrive files easily from any device or browser. You can work offline and your files automatically sync once you're back online, so you always have access to the latest version across all your favorite devices.

Windows 10 Pro devices gets even better with Office

Work faster, smarter and more securely.

Running Office on a Windows 10 Pro device can help grow and transform your business. Get more done, creating and easily sharing polished Office documents on the go, with co-workers anywhere, anytime, while using exciting features on your new Windows 10 Pro device.

Your device grows with your business.

Getting a device with Windows 10 Pro and Office now will set you up with the right technology for successful business growth. You'll be able to quickly and easily network your devices and manage updates, plus get the extra security and peace of mind that your system and data are protected.

Teamwork without all the work.

Collaboration is easy when you use Office on Windows 10 Pro devices. You can work together on the same presentation and save your updated document to OneDrive. Contributors can add their changes, and the document is synced to everyone's device so the team works from the same version.
