Servers highlighted above are a small subset of the HPE Flex Offers available. Please navigate to iQuote for the entire list of servers included in HPE Flex Offers. ALL Savings shown are not final savings and can potentially receive more savings with the increase in additional options attached to each base server. Other HPE platforms not listed above may have a different attach rule in place and must view HPE iQuote by Platform to view key attach rule differences. Options qualified HPE Flex Offers can be found in HPE iQuote by looking for the HPE Flex Offers logo mentioned above. Please consult with an HPE Authorized Distributor for actual savings, and for specific attach rules for each respective platform. Promotional pricing with HPE Flex Offers is not stackable with Escalated Pricing or Deal Registration.
